

Simply Enhancing Collaboration

Dear Parents & Guardians,

I am happy to announce that our class will be using Teacher App & Grade Book this year in an attempt to increase teacher, parent, and student collaboration. In order for you to access this valuable resource, it is important that you fill in the form below and return it to me as soon as possible. The next step for you to gain access is to download the app on your Apple or Android device and insert your information. You also have the option to set up access for your child as well. As soon as everyone is connected, you will have instant access to messages, grades, attendance, checklists, and a calendar for class information and events. Additional features for parents are the ability to message teachers, and to send official password protected absence notes straight through the app. I urge you gain familiarity with the app and explore the many features that will help us stay connected throughout the year. Additional information regarding the Teacher App & Grade Book can be found on their website @www.academicallyinformed.com.
